DETAILED ACTION

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's amendment was given in a telephone interview with Alan Israel on 1 September 2005. The application has been amended as follows:

In Claim 2, Line 2, the word "approximately" is to be removed.

The following changes to the drawings have been approved by the Examiner and agreed upon by Applicant: Figure 1 and Figure 2 are to be labeled "prior art." In order to avoid abandonment of the application, Applicant must make these above agreed upon drawing changes.

2. The following is an Examiner's statement of reasons for allowance:

The best references found by the Examiner do not disclose every feature of Claim 1, either individually or in combination.

Specifically, Gu, U.S. Patent No. 5,697,088, and Vaisanen, U.S. Patent No. 6,018,277, each disclose a balun comprising parallel conductive lines, some of which are connected to ground (Gu: Abstract, Column 3 Line 60 to Column 4 Line 5, Fig. 6. Vaisanen: Abstract, Column 4 Lines 29-45, Fig. 7). Neither Gu nor Vaisanen discloses conductive interconnects connecting two or more of the parallel conductive lines, nor does either inventor disclose seven conductive lines in the respective baluns, nor does either inventor disclose the particular pattern of conductive lines (since both inventors

disclose even number of conductors), ground connections, and port connections of Claim 1.

Sheen, U.S. Patent No. 6,351,192, discloses the use of interconnecting bondwires in a balun (Abstract, Column 11 Lines 33-58, Figs. 13-14). However, there is no motivation to combine the interconnecting bondwires of Sheen with either Gu or Vaisanen, and it therefore would not have been obvious to make any such combination at the time that the invention was made. Furthermore, such a combination, if possible, would not be a proper rejection of Claim 1, because Claim 1 additionally recites seven parallel conductors with a specific arrangement of interconnect, port, and ground connections thereto.

Because Claim 1 is allowable, and because Claims 2-16 depend on Claim 1, Claims 1-16 are allowable.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
